Silex Technology America Introduces 802.11b/g/n Low-Power Solutions based on Qualcomm Atheros AR6003

Silex Technology America has recently announced the [SX-SDPGN](#) System-in-Package (SiP) and the [SX-SDMGN](#) wireless radio module. The newest products in our embedded wireless family offer our mobile electronic device customers the ability to improve performance over existing 802.11g radios.

Silex Technology America is uniquely qualified to enable device manufacturers to integrate Qualcomm Atheros AR6003 technology into their products. As a Qualcomm Atheros Authorized Design Center (ADC), Silex Technology America can provide the driver and security supplicant to provide a one-vendor total solution.

See our New Products at CES

Visit us at CES 2012 from January 10 - January 13.

We will be showing the following new products:

- Embedded Wi-Fi Solutions based on the Qualcomm Atheros AR6233
- Next-Generation Intelligent Modules
- Next-Generation USB Device Connectivity Solutions

We will be in South Hall 2 "Meeting Place" - Booth #25449 in the Las Vegas Convention Center.

Please contact sales@silexamerica.com to schedule an appointment.

Silex Technology Launches SDK for Wireless iPad and iPhone to USB Device Connectivity

Are you a USB device manufacturer that is looking for a way to allow your USB device to be wirelessly accessed from iPad and iPhone users? If so, we have the solution!

With the [Silex SX-Virtual Link SDK for iOS](#) in conjunction with Silex USB device connectivity solutions, USB device manufacturers and systems integrators can allow virtually any USB device to be connected wirelessly from iPad, iPhone or iPod Touch.

Silex Technology Agrees to Murata Machinery Common Stock Tender

Silex Technology America Inc., a global leader in wired and wireless networking solutions, confirmed that Silex Technology Inc. [NASDAQ (6679)] announced in Japan that Murata Machinery Ltd.'s (Muratec) completed the successful tender offer for its common stock. The successful bid, coupled with subsequent transactions will allow Muratec to acquire all shares of Silex Technology making Silex a wholly owned subsidiary of Muratec, a private Japanese-held company. Silex's brand and operations in Japan, Europe and the United States will continue without interruption.
